Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The Amendment filed on 14 February 2005 has been acknowledged.

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 14 December 2004 was filed and is being considered by the examiner.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 15 is rejected under 35 U.S.C. 102(e) as being anticipated by Maeng et al (US 6,561,625).

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Maeng et al disclose in Figures 8A-8D and 9 the following claimed features:

An ink-jet printhead (ink ejector 200), comprising:

-a substrate (210) on which an ink chamber (214) to be supplied with ink to be ejected is formed on a front surface (top surface) of the substrate (210), a manifold (212) for supplying ink to the ink chamber (214) on a rear surface (bottom surface) of the substrate (210), and an ink passage (ink channel 216) in communication with the ink chamber (214) and the manifold (212) is formed parallel (Figures 8D and 9) to the front surface (top surface) of the substrate (210);

-a nozzle plate (220) formed on the front surface (top surface) of the substrate (210);

-a nozzle (222) formed through the nozzle plate (220) through which ink is ejected from the ink chamber (214), wherein the nozzle (222) is formed at a periphery of the ink chamber (Figure 8B, the central part), opposite to an entrance to the ink passage (ink channel 216) from the manifold (212) (see Figure 8B, the central part);

-a heater (230) formed on the nozzle plate (220); and

-an electrode (250) electrically connected to the heater (230) for applying current to the heater (column 7, lines 53-54).

Response to Arguments

4. Applicant's arguments, see applicant's Remarks, filed 15 February 2005, with respect to the rejection(s) of claim(s) 1-4 and 11-14 under pages 6 and 7 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Allowable Subject Matter

6. Claims 1-4 and 11-14 are allowed.
